

| specificazioni               |                                                                         |
|------------------------------|-------------------------------------------------------------------------|
| Modello di prodotti          | AOZ8045DI                                                               |
| fabbricante                  | Alpha and Omega Semiconductor, Inc.                                     |
| Descrizione                  | FILTER RC(PI) 100 OHM/9PF SMD                                           |
| Categoria                    | <a href="#">filtri</a> > <a href="#">Filtri EMI / RFI (LC, RC Reti)</a> |
| Stato parte                  | 27000 pcs Stock                                                         |
| Tensione - nominale          | 5V                                                                      |
| Valori                       | R = 100 Ohms, C = 9pF                                                   |
| Digitare                     | Low Pass                                                                |
| Tecnologia                   | RC (Pi)                                                                 |
| Dimensioni / Dimension       | 0.098" L x 0.047" W (2.50mm x 1.20mm)                                   |
| Serie                        | -                                                                       |
| Resistenza - Canale (ohm)    | 100                                                                     |
| imballaggio                  | Tape & Reel (TR)                                                        |
| Contenitore / involucro      | 12-UFDFN Exposed Pad                                                    |
| temperatura di esercizio     | -40°C ~ 85°C                                                            |
| Numero di canali             | 6                                                                       |
| Tipo montaggio               | Surface Mount                                                           |
| Altezza                      | 0.024" (0.60mm)                                                         |
| ordine del filtro            | 2nd                                                                     |
| Protezione ESD               | Yes                                                                     |
| attuale                      | 20mA                                                                    |
| Centro Frequenza di taglio / | 250MHz (Cutoff)                                                         |
| Valore di attenuazione       | -20dB @ 1GHz ~ 3GHz                                                     |
| applicazioni                 | Data Lines for Mobile Devices                                           |

|                                                                                                                                                                                            |                                                                                                                                                                                            |                                                                                                                                                                                             |                                                                                                                                            |
