| fabbricante                             | Micrel / Microchip Technology                         |
| Descrizione                             | IC MCU 8BIT 32KB FLASH 44VQFN                         |
| Categoria                               | Circuiti integrati (CI) > Embedded - Microcontrollori |
| Stato parte                             | 3271 pcs Stock                                        |
| Tensione di alimentazione - (Vcc / Vdd) | 1.6 V ~ 3.6 V                                         |
| Contenitore dispositivo fornitore       | 44-VQFN (7x7)                                         |
| Velocità                                | 32MHz                                                 |
| Serie                                   | AVR® XMEGA® D4                                        |
| Dimensioni RAM                          | 4K x 8                                                |
| Tipo di memoria di programma            | FLASH                                                 |
| Dimensioni memoria programma            | 32KB (16K x 16)                                       |
| Periferiche                             | Brown-out Detect/Reset, POR, PWM, WDT                 |
| imballaggio                             | Tray                                                  |
| Contenitore / involucro                 | 44-VFQFN Exposed Pad                                  |
| Tipo oscillatore                        | Internal                                              |
| temperatura di esercizio                | -40°C ~ 85°C (TA)                                     |
| Numero di I / O                         | 34                                                    |
| Dimensioni EEPROM                       | 1K x 8                                                |
| convertitori di dati                    | A/D 12x12b                                            |
| Dimensione nucleo                       | 8/16-Bit                                              |
| core Processor                          | AVR                                                   |
| Connettività                            | I²C, IrDA, SPI, UART/USART                            |
|                                         |                                                       |
